Bill Haines, Disappointed
With Crew Spirit, Speaks Frankly to Student Body

Perhaps I am pessimistic, in any case I am very disappointed to find that the student body has taken out for crew work, but the real reason is, indifference to the sport and to the Institute. I am bound to express my disappointment, not because you are not trying to make the best of the situation, but because you are not trying to make the best of yourselves at the boathouse when the ice is out of the river. It is you who have been trying to fashion crude and raw material into first-class oarsmen. In the Institute, it takes to turn-out in great numbers to make the major sport at the college. These men from my own observation are beautiful physical specimens, and not win one race, that to me would be a far more successful end in the rowing world, but it is not beyond the realms of possibility and not win one race, that to me would be a far more successful end in the rowing world, but it is not beyond the realms of possibility and not win one race, that to me would be a far more successful end in the rowing world, but it is not beyond the realms of possibility

For the last time Bill Haines is every way the sooner we make the best effort. The sooner you fellow students will come up and back in line, the better.

Crew Campaign to Start This Monday

I regret that I cannot write you the same in the future, but on the whole I think it is too early to come out for crew work, but the real reason is, indifference to the sport and to the Institute. I am bound to express my disappointment, not because you are not trying to make the best of the situation, but because you are not trying to make the best of yourselves at the boathouse when the ice is out of the river. It is you who have been trying to fashion crude and raw material into first-class oarsmen. In the Institute, it takes to turn-out in great numbers to make the major sport at the college. These men from my own observation are beautiful physical specimens, and not win one race, that to me would be a far more successful end in the rowing world, but it is not beyond the realms of possibility.
