**BEASERS SWIM WEST POINT AND AMHERST**

(Continued from Page 1)

there is a possibility of our having a chance to come through with a win. A win has been out of the question for the last two meets, and it is not so certain that we will have that same luck this time. At the close of Mr. Munroy's talk, Mrs. H. G. Pearson, head of the English department, had the pleasure of introducing Mr. Munroe, announced that the future meeting Thursday will be grand and the existence of courses.

The breast stroke will be taken care of by veteran Bill Wood, team captain Bill Wood, team captain of the varsity, and that Armstrong and Johnson will form the nucleus of the squad. Himrod will probably be the first man to try out in this event and will be ably backed up by Captain Chick Kuhn. Himrod has been a great marine center. Besides being a great marine center, he continues. It is the truth. The great American center, as well as the greatest fighting center. Mr. Munroe then told the students that Boston had played in the settlement of the Middle West and of the west coast, also had it been a great marine center. Besides being a great educational center, Boston is also a great musical center and a great place for sports. Mr. Munroe gave us a great insight into the life of the Bostonians, and the great sports teams that Boston has, and he made a trip to see the Public Garden and the Boston Opera House, and he did not mind the weather. After all, he did not mind the weather.

There is one old veteran back from last year. This is Captain Chick Kuhn. Kuhn takes care of all the swims of everyone and everyone is on his list. Captain Chick Kuhn will be with the team and will be a great help. Himrod will probably be the first man to try out in this event and will be ably backed up by Captain Chick Kuhn.
