The great leader of a great industry

EVEry industry has its leaders. The Pont was the pioneer in explosives manufacture in this country, and has held that leadership for 125 years.

It has been the privilege of the Du Pont organization to inaugurate every great forward step in the development of explosives through continuous research and experimentation.

Du Pont not only has produced explosives of every type to meet the varied requirements of industry, but has anticipated those needs by developing explosives for new conditions and new problems.

Send for your free copy of "Blaster's Handbook," an authoritative work describing the methods of using explosives for various purposes-industrial, agricultural and general. You will find this book useful in your college work.

When requesting "Blaster's Handbook," please refer to THE TECH.
