1925 OPEN HOUSE NIGHT HAS BEEN SET FOR APRIL 16

Special Demonstrations Will Be Arranged by the Laboratories

LARGE CROWD IS EXPECTED

Combined Professional Societies Will Furnish Guides

For Visitors

April 16 has been selected by the committee to charge as the date of this year's Open House Night. This is a couple of days before the date of the first one selected because the program of Junior Week is also that time.

The committee expects a large crowd and has taken measures to provide for its accommodation through a new system of tickets. In each part of the building a group of students will be placed at a spot to guide the visitor through the different rooms, in which that part of the building, in order to avoid confusion within the student body, will be divided into a certain number of guides, and by having our own contacts a party through the whole building. Special tour programs will be supplied to all visitors containing a historical sketch of the building and of the various schools to be seen.

In addition to the show displays, several special tours will be arranged by the various professional fraternities and sororities in order to perform the university. A representative of the Associated Student's Laboratorial Research Bureau will be present to answer questions from visitors.

Invitations will be sent out much earlier than the date last year. In the past week, only when the Metropolitan district was included. Among those invited for this year will be several prominent men, including R. E. Rogers on the Executive Committee.

BATTLE OF MUSIC AT JOINT CONCERT

Barbary Coast Jazz Band Will Compete With Dance Orchestra

The famous Darlington Barbary Coast Jazz Band will join with the dances of the Institute Combined Club Chemist in a battle of music at the Institute on March 26. Tickets for the special music program will cost two dollars each.

The Barbary Coast Jazz Band played to a large and enthusiastic audience in Paris last year. It also played on the oceanliner and is now preparing for its first tour of the United States. The band consists of twelve men and has two outstanding soloists, L. H. Justice, manager of the band, "has put together a very fine band," according to the New York Times.

The concert will begin at 8 o'clock on March 26, and the ticket at 7.30. The main features of the program will be the dancing of the Institute Combined Club Chemist, with Mr. T. J. Hinton as chairman of the committee. The program will open with the Saint Louis University band, and the closing will be the song "Swanee River." The concert will be directed by Mr. T. J. Hinton.

For Visitors

Tickets are $1.50 for members and $2.00 for non-members. Two dollars will net you a special ticket which will allow you to attend the lecture without being charged anything at the door. As usual, the lecture will be given in the main lobby today from 12:30 to 1:30.

PHILHOWER EXHIBITS PIPE-MAKING MOVIES

A representative of the Institute's Institute Committee, with Roger Ward and R. C. Whelan, will give a slide show of Philhower, the pipe-making company of New York. This is the way it is done. Philhower is Boston representative of the Institute.
