Before Tapping Your Resources for New Spring Clothes
Do This:

Think of your "Coop" dividend, see if your suit and tocapose are in the Coop's stock of latest "ready-to-
march" garments. Consider your "Coop" member's
percentage on prices that are moderate anyway.

You must hold fast! Before you part with the "precious metal," come in and make an inspection!

Topcoats
An ample selection of Topcoats in Knit Cloths, imported Tweeds and Covertts—various colors to match or contrast with suits—cut on the newest lines for style and ease.

$28.50 to $49.50

Four-piece Sport Suits
(with knickers and long trousers)
Approved, prevailing two-button and three-button models, embodying all innovations of cut and color in the newest imported and domestic fabrics.

$39.50 to $49.50

Obtain better blasting results at lower costs

WHEN you buy duPont explosives you buy something more than a commercial product. Back of every pound of du Pont explosives is the knowledge and experience gained during 122 years in the development and production of explosives.

The uniformity of its products has made the du Pont Company's explosives standard throughout the world. This uniformity is obtained through the exercise of the most careful selection of all materials and the complete chemical control of every stage of production from raw material to finished product.

Because of the quality and efficiency of du Pont explosives their users do obtain better blasting results at lower cost.

Don't fail to send for your free copy of the "Blasters' Handbook"—an authoritative work describing the practical methods of using explosives in every field. You will find this book invaluable both in college work and your reference library.
