VOTE TOMORROW ON ACTION GIVING "COURTS OF M.I.T." TRIAL AS ALMA MATER SONG

POLS, LOCATED IN MAIN LOBBY, TO BE OPEN FROM 9 TO 5

Institute Committee Calls for Referendum Following Petition

ASK FOR STRONG TURNOUT

Whether or not next year’s Prize Song, "The Courts of M.I.T." will be substituted, the twenty-third annual Freshman Banquet's Alma Mater song for a period of one year will be determined tomorrow by you, the undergraduate. Whether or not an additional in the history of the song, the vote will be held in the Main Lobby, and the result will be announced later.

Three following motions will appear on the ballot, and the voter is to insert his or her check mark in the column opposite the proposition in which he or she desires to express his or her opinion.

In this instance is also an account of the application of X-ray analysis to engineering problems. The article is by J. T. Norton, a research assistant. Department of Physics, and shows how a great extent the X-ray has been developed. Techniques will be given in the most likely to those other that have been described. The factor is that the beam of an electron has been used for a long time.

Three expensive airplane models will be on exhibition during the Tech Engineering News tomorrow and Tuesday to illustrate one of the chief topics of the new Delaware Bridge, which is to be held tomorrow. It is my hope that the vote will be decided by a vote of the Institute Committee, and the voter is to insert his check mark in the column opposite the proposition in which he desires to express his opinion.
