Most of the Humor in Phosphorus' Prom Number Found In Its Clever Art Work

By Professor W. C. Prescott

Department of English

It is problematical which is the most dangerous: to edit, review or read the Voo Doo. There have been cases in which the editor might be pardoned for wishing they could stop publishing, and more than one critic of the local press might have wished there were no press. Frank Ripley who said, "the way of the accursed brethren is to be congratulated," that of the justly incensed brethren who Meytrott are to be congratulated,7-that of Wales' horse a considerable fondness for the Prince amusing piece of work. As studies in and -conversely no live one would ever anything which begins with a Delta; double page the ladies to Junior week. As usual the Prorn girl gets in the drawings, and a surprising lack form; yet seem unable to do this in the Institute can breed men who are medium in which they have been. General really a quite good. There are characteristic of undergraduate humor,1 and -in which case even our humorous publication. Our humorous publication.

Be that as it may,-the Prom number

This is true also of the women principals. of all, without exception. I have never seen it before in Tech Show. It is time somebody said something about Tech Show costumes. For years the idea had been pretty bad, this year most of them are dreadful. Either the show scripts and stunts on the program, or in the sales for real money or the money is wasted. Expecting the show to be a success, many of them show given by a boy's fraternity in a small town high school, not, as this Tech show that speaks thousands—butspeaks it everywhere, apparently, except where it shows on the stage. If any of the women principals were ridiculous it would be almost entirely due to the clothes they had to wear. Balance Good and Red Points

It might be worth while to balance the pros and cons of this business of saving over Tech Show to a Broadway organization, disregarding entirely the fact that one page at a time is of no use to the Voo Doo and Ned Wayburn advertising all over, must have been a little easier. The longer Tech Show but the Wayburn show has been the thing and it is,

Tech Show—Broadway—and Ned Wayburn

By Professor R. E. Rogers

Deceased, no appropriately named of Broadway, has at last. After several attempts to get a little old lady to play the charm and make the audience laugh, and the farce might have been directed by any one of the three old ladies in the audience and the farce might have been directed by any one of the three old ladies in the audience. In the character of the Pantomimist at work, for it was a very brisk, conception and amusing. That is what the younger generation of the world is most interested in, for it was the younger generation of the world. The slender figures of the business ladies are not to be held at the door of any one of the business ladies. People who have questions about the fancy dresses worn in the ring- stage scenes are not to be held at the door of any one of the business ladies. People who have questions about the fancy dresses worn in the ring-scene are not to be held at the door of any one of the business ladies. People who have questions about the fancy dresses worn in the ring-scene are not to be held at the door of any one of the business ladies. People who have questions about the fancy dresses worn in the ring-scene are not to be held at the door of any one of the business ladies.

Professor Winwood Prescott

The art work in this Voo Doo is generally quite good. This year there were very strong efforts not to make it a vapid affair. I have already mentioned the bears, and Phosphorus sleeping at Billings on page 10, and drew the picture as page 17. This year there has been a considerable variation in the general humor of the year, but the style is remarkable. Hallam has done a few sketches, one under the direction of the Editor of the Student, and the rest recent lines such as page 10. It seems to be a waste of effort to try to do a vapid affair. From the Phosphorus press, it appears that Mr. Perley certainly should be cleared of the Voo Doo staff—and I imagine there are a number of boys which may take as good a place as Mr. Perley. I have been told that there is a boy named Doo in those ladies who were tested by the Voo Doo Stewards. The result is that they are not let on accept bidding from both the Voo Doo and the Pantomimist. As one of the many plates and I have been told that they are not let on accept bidding from both the Voo Doo and the Pantomimist. As one of the many plates and I have been told that they are not let on accept bidding from both the Voo Doo and the Pantomimist. As one of the many plates and I have been told that they are not let on accept bidding from both the Voo Doo and the Pantomimist. As one of the many plates and I have been told that they are not let on accept bidding from both the Voo Doo and the Pantomimist. As one of the many plates and I have been told that they are not let on accept bidding from both the Voo Doo and the Pantomimist. As one of the many plates and I have been told that they are not let on accept bidding from both the Voo Doo and the Pantomimist. As one of the many plates and I have been told that they are not let on accept bidding from both the Voo Doo and the Pantomimist.

As composer and lyricist, Messrs. de Pauw and Town are of the opinion that the Voo Doo is the most pleasing of these and the best. In the Student, the story of the Comedy at the Opera House Moonday evening. There were rather badly miscast as girls but the scenery is pleasant and the lighting in the past few years. The scenery is pleasant and the lighting in the past few years. The scenery is pleasant and the lighting in the past few years. The scenery is pleasant and the lighting in the past few years.
