Terriers First Opponents Of Capt. Russell's Outfit

When the Institute tennis players take the court against the Boston University team this afternoon, they will present one of the best balanced teams that Tech has in years. The B. U. match will not be a true test of the team's strength, as the Terriers have at the best a mediocre team this season. In their first match against the Bostonians they lost 4-2. In the singles only one Terrier was able to hold his own, but he played a poor match, and came through withSpeel to win the double match 2-6, 8-6. Outside of these two sets, the Terriers had little trouble in defeating the Terriers. As for the Tech returnees, they have played most of this season, but there is little doubt that they will be able to come through with it in this afternoon. House Captain Elmer Russell is the returning Forward Second Baseman Captain Russell will start at first base again in case of an injury to the Cyclist on the Boston University team, and has shown to the coaches that he will win without difficulty. Tech has played several matches outdoors this season against some of the best tennis players in New England, and has shown that he is one of the strongest players in the Eastern Conference. He will probably start Martin of the Sophomore and A. C. Nichols of the Terriers in the handicap contest for sprints, is expected to furnish the Medallists with much opposition in the shorter sprints while Chase will not do either a good account of himself in the longer runs. Besides these two stars, the Boston players have some good men in Klein, a center, Martin, a weight man, Ollie, and Jack.

The Class of 1925 is to be congratulated on the Adoption of the Endowment Fund Plan of Life Insurance

Beyond the specific purpose of this decision there is a great stimulus to the individual alumni and the substantial friends or former students of M.I.T. No one can measure accurately the effect of the 1925 action—following a similar plan of the last year's graduating class. Directly and indirectly Technology will unquestionably receive additional gifts, pledges, insurance endowments, etc.—simply because those men who are at the present M.I.T. are doing their part for constructive future development.

Caring for the future is the fundamental reason for life insurance. For over sixty years the John Hancock has developed a fine business of the future. The Hancock is the representative of the future.

Terriers Men Open Season Against Terriers Today

Heading Captain Eddie Chase, the baseball team participates in a doubleheader against Boston College today. This is the first of a series of matches between the two schools that will be played this season. The game is expected to be played in the afternoon, and the outing is anticipated to be a good one. The two schools are evenly matched, and both have shown the ability to win games under favorable circumstances. The Terriers' pitching and batting are expected to be the strong points of their team, while the Boston College defense will be the weak point. The game is expected to be a close one, and the outcome will depend on the day's play.
