THE TECH

THE EDITORIAL

FROM THE UNDERGRADUATES

During the course of the year the undergraduates assume that responsibility for the Alumni magazine, and they take their dedication as a matter of course. The advent of a renumeration such as this subjects their possessive complicity to a realization that the Institute is infinitely greater than the contemporary student body.

Because the undergraduates have caught in some measure the significance of the vast group that is Technology, it is their sincerest desire to contribute all that they can to do homage to the men who form this more real part of the Institute. Because it is felt by the undergraduates that they have caught something of the real meaning and spirit of the reunion and have thereby become part of it, they extend in their own right the heartiest of welcomes to all alumni.

So more fitting tribute to the school is known than that of a thought, a song, a meeting, a memory, returning to honor their Alma Mater. Such an event is most significant as indicating what a real and vital spirit has permeated the organization of Tech. The true significance of the event is the spirit, the esprit de corps, of this organization. And it is something of an inspiration to the undergraduates that a study of this subject offers is the spirit, the esprit de corps, of this organization.

A SIDELIGHT

"The Devolution of the Collegiate Ford" is a peculiar phenomenon of economic and scientific importance and offers intriguing side-light on the sapient processes of the genius collegiate. Defined, the Ford is a "tung" mass of traditioning of twenty-five dollars, but having an actual cash value of so many dollars. Taking another angle, it may be described as a yardstick of eminently fit him for the difficult position which he has been assigned to fill.

A LITTLE, IT IS IMPORTANT THAT THIS SPIRIT BE DEVELOPED TO A MAXIMUM INTENSITY. THE POINT IS THE SPIRIT, THE ESPRIT DE CORPS, OF THIS ORGANIZATION. AND THIS IS SOMETHING OF AN INSPIRATION TO THE UNDERGRADUATES. THE MANIFESTING OF THIS SPIRIT WILL HAVE A WHOLESALE EFFECT ON COLUMBIA'S BADLY NEEDED CREW CRISIS.

The highest commendation is deserved by those who have worked so hard and contributed so freely in putting across the reunion. It has been excellently handled—an admirable piece of reunion organization.

CONTEMPORARY COMMENT
