FIELD DAY TEAMS REPORT SOON

Sophomores and Freshmen Renew Annual Enmity in Contests to be Held Field Day

Now that the time for registration is fast approaching and along with it the first day of class, it brings to mind the fact that it will not be long before the two largest classes of the school face off in the annual Field Day contest.

Instead of the annual battle which is usually held, there will be a meeting between the Sophomore and Freshmen classes with each class forming their own teams and struggling for supremacy on both land and sea in the familiar Field Tech gym. This contest will be held on Thursday, September 25, as the series of sudden storms over the last two days has caused the postponement of class 27 but, as this class has now been relegated above the field day contender, the classes of 1928 and 1929 will fight to the bitter end for first honors.

Basketball Full Rule is Radically Changed

When the time comes for the bas- ketball meet, the players may be surprised to notice the contrast between the songs and dances performed by these two organizations in exam rates to their matches or contests which serve to lessen the amount of accidents usually occasioned, and also to cause the keen rivalry which already exists.

Crew Race First Event

The first event of Field Day is the crew race which is held on the Charlevoix, "ever the shortest." This is usually a very interesting race as the teams are very even matched and are seeking for the honor of their respective organizations. The place is sure that there are several crack rowers in the racing class and, with the practice which they have had before the season for the race, they should develop into a formidable organization.

Football Game on Tech Field

Last year's freshman crew is prac- tically intact, barring a few or so men who are at the present moment. The crew weighed the men in a very close match and will also boast the strongest meeting class with plenty of enter- tainment, while the team played through the muddy waters of the Charlevoix.

One of the hardest fought contests of the day is the tug-of-war, which is held on Tech Field. The contest is won by the side that withstands the strain the longest. The place is sure that there are several crack rowers in the racing class and, with the practice which they have had before the season for the race, they should develop into a formidable organization.

SOPH'S CALL OUT MEN
FOR PIGSKIN PRACTICE

With the beginning of the Institute still several days away, the Sophs have already set it as a call out for all men interested in the 1926 football team. There will be a meeting of all the men interested at the baseball field on Tuesday, September 25, at 4 o'clock.

Last year with a team that was supposed to be very weak as com- pared with a strong '24 eleven, the finish held their opponents at a compass length in the last quarter.

This year with the Sophs planning to strengthen that team with a win over their own opponents.
