VI-A STUDENTS TO LIVE IN NEW HOME

Company Plans to Better Living Conditions of Men in New City

The American Telephone and Telegraph Company has announced plans to create a new student residence in New York City which will be possible from October 15. The new building, located in the heart of the city, will be under the supervision of the company, which has leased the property from New York University.

The building will consist of three floors and will accommodate 100 students. Each room will be equipped with a bed, desk, and chair. The building will have a common room, a kitchen, and a laundry room.

The company plans to offer a variety of activities to the students, including a library, a study room, and a recreation area.

GERMAN STUDENTS VISIT TECHNOLOGY

Group of Sixty First to Come to America Since the World War

As part of a three-week tour, a group of sixty German students will arrive in America. They are scheduled to visit a number of universities and educational institutions in the United States. The tour is organized by the German Academic Exchange Service (DAAD), which promotes international academic cooperation.

The students, who are majoring in various fields of study such as engineering, history, and economics, will be hosted by several universities, including the Massachusetts Institute of Technology. The students will have the opportunity to attend lectures, seminars, and workshops led by experts in their respective fields.

The group is expected to visit major cities in the United States, including New York, Washington, and Chicago, before returning to Germany.

NOVEL ENTERTAINMENT SMOKER FEATURE IN WALKER FRIDAY NIGHT

BUT TWELVE FROSH OUT FOR FOOTBALL

Crew and Track Have Largest Number of Freshmen

According to the football coach C. E. Pott, the team has a total of 12 freshmen, which is the highest number of freshmen in recent years. The coach expects that the freshmen will contribute significantly to the team's performance.

The football season begins next week, and the team is scheduled to play against several tough opponents. The coach has expressed confidence in the team's ability to perform well, despite the large number of freshmen.

Lucky Handbill Holders Will Be Awarded Prizes

Dinner Served for Freshmen at 6:30 O'clock

The Program is Varied

Dr. W. A. Rowe U, H. D. Pecock '13 and Prof. R. E. Rogers Will Speak

With the plans of the Committee rapidly finalizing, the Fall Lambda functions are moving to Walker Memorial before it is one of the last official days of its kind ever offered to the student body. An announcement was made at the committee meeting yesterday that the dinner will be served to the students in Walker on Tuesday, October 7, at 6:30 p.m. The Committee urges everyone who expects to attend to hold his numbered ticket for valuable refreshments when they come on Wednesday evening.

Following this dinner, the Sophomore and Junior class officers will speak on the various activities which interested them during the past term. Leaders special handbills will be distributed to the students, and the officers will hold the lucky handbill holders will be awarded prizes.

The rest of the entertainment will be arranged by the Committee on the fourth floor of Walker Hall.

CIVIL ENGINEERING SMOKER OCTOBER 23

The Civil Engineering Society has made arrangements to hold its first smoker of the year on October 23, and has selected Mr. Donald Cooper, of a faculty member, to speak on this date. Mr. Cooper is an expert in the field of Civil Engineering, and is well known for his contributions to the field.

The society has also arranged for a number of guests to speak on various topics related to Civil Engineering, including the design and construction of bridges, roads, and other structures.

The smoker will be held in the McCosh Auditorium, and refreshments will be provided. The society hopes to see a large turnout of members and guests.

Smoker Tickets
