Although it is a bit early in the season to forecast with any degree of accuracy the caliber of the cross-country team, the present outlook in the East suggests that there will be one of the best aggregations of hill and dale runners to represent the Cardinal and Blue in recent years. Of the twenty-five men in the team, several have already escaped out early in the fall, rapidly rounding into condition for the first meet which is to be run on Nov. 7.

The team has tucked under their belt, they may say, all untried in collegiate running a year ago, and already the writing is on the wall as to the great promise of the coming campaign. The personnel of the men who are in the forefront of the team is truly remarkable. There is not a single one of them whose name is not well known in the running circles, and the expectations of any of the men are high and justified.
