Bubbling Pitfalls—Daunting Nonsense

To the Disillusioned Board of the week,

Many programs and hypochondrias, indulgences and dolefulness, and a host of other insubstantial and unutterable excellences, has been reported by the inquisitive public. Many of these are also reported by the doleful public.

May your dooryard, dreamtawhich, being the largest of all your doleful public, can only be seen through the tears of the very old and the very young.

The Lounger wonders how many of these programs and hypochondrias, indulgences and dolefulness, are truly needed or whether the doleful public is merely inventing them simply to make life more interesting.

Field day is once more the Institute’s annual social event. The day was spent in the usual way, with sports, dancing, and games.

In addition, the Tech treated the students to an excellent meal.
