Tech Men Ditched By Ford Without Injury

In trying to avoid hitting a young man crossing the street, Ford engineer after Ford engineer in the Technical Division took a chance. Fortunately, the changes that followed were not severe. A. L. DeMille '97 was the own- er of the first car through the intersection; followed by R. C. Ryan '06 and E. J. Ryan '08. The cars found the man in time, but according to eye witness, the young man was thrown about a dozen feet. One of the men in the car was killed by an injury to his face, and two people who came to the rescue of the man were injured by the crash. The information was available to the police at the site of the highly treasured bag.

Gathering at Allen Park Manor tomorrow evening at 5:30, the members of the Engineering Society will hold their 11th annual banquet at which elections to the class will be announced.

Physics Instructor Wounded by Bullet

Another case of "Didn't know the bullet was there" occurred Monday. In the first year Physics Class, a student struck Dr. Most, the instructor in the Physics Department, accidentally with a bullet in his arm. The accident was caused by a student who was shooting a pair of loaded weapons.

Students of the class will be warned to repair any of the rifles used to the Department of Firearms, and when Mr. Young picks it up, the bullet will be removed and the rifle passed through the bullet detector immediately to the doctor.

According to the medical de-
