Rifle Team Splits Two Weeks' Matches

In the four position matches shot at the Tech rifle range last week, the rifle team was from the Springfield College League, while the University of Massachusetts was from the New England League. The Tech team was entered in both the Tufts and Dartmouth tournaments, and the U. Mass. team was entered in both the Springfield and Dartmouth tournaments. Both teams are working hard on the range, and in the next few weeks we can expect some fine shooting from both teams.

VI-A BANQUET IS AT LYNN TONIGHT

Reception to New Students By The General Electric

A reception to welcome new students will be held by the management of the General Electric company's dining room on the afternoon of the Tech rifle range. The reception is designed to introduce the new students to the facilities available at the General Electric company, and to familiarize them with the company's policies and procedures.

Intercollegiates

Psychic tests will be given by the Vassar College Dramatization Department beginning next June. This will be the first time that such tests have been offered in this country. The tests will be given in various settings and will be used to determine the psychic ability of the students. The results of the tests will be used to select students for future psychic research projects.

Punona College in California has adopted a plan of grouping students together in units of 100 or more to make it possible for all students to attend the college at the same time. The plan has been successful in reducing the cost of attending the college and increasing the number of students who can afford to attend.

The students at Dartmouth have been acquainted with a new type of transportation system, which is a reproduction of the subterranean system that has been installed in the gymnasium. The system, which consists of a belt moving back and forth on the floor, allows the students to walk across the hall, while colored lights signal the direction of the belt.

A Pacific coast athlete who was on a tour up at one of the Seattle hotels was unable to record a good long jump because of an apparatus. However, this inconvenience was finally remedied by placing two mattresses on the floor, upon which the seven-foot室内十足宽敞。
