ELECT CHESNEY AS A. I. E. E. PRESIDENT

Succeeds Dr. Michael Popov As Leader of Organization

At the recent elections held by the American Institute of Electrical Engineers, Comings C. Chickiny, of Pittsfield, Massachusetts was chosen to succeed Dr. Michael Popov as national president.

Mr. Chesney is famous as the one who laid out the First Polyphase Power Transmission Plant in America. As President of the A. I. E. E. he holds one of the highest executive offices of the country. Michael Popov, whom he succeeds, is one of the most noted scientists in the world today and is expected to have received more honors for his work than any other present-day engineer.

His career is replete with achievements as an inventor and leader. At present he is actively engaged in research work at Columbia University where he serves in the capacity of professor and head of the department of Electrical Engineering.

ROOM REGISTRY OF T. C. A. IS ACTIVE

Room changes, and requests for new accommodations, have necessi-
tated that the lists of the Room Registry of the T. C. A. be brought up to date.

Last fall the lists of the registry included 8500 rooms. Early in the term, Technology men occupied 400 of them, and the faculty, 100 of which, is still in use at the time.

Through the efforts of the Executive committee of the T. C. A., copies of the list maintained have been placed in the Main Library, West Lounge, Walker Common Room, Ware Hall, and in the T. C. A. office. The former consists of a monthly magazine pub-
lished for college Y. M. C. A. organi-
zations.

Dr. D. E. Phillips, professor of psy-
chology at Denver University, declares that re-vals do not seek education as a training for a career. "Not one out of ten expects to get a job. Most of them plan to use their education to improve their present position."

Dr. Andrew C. F. Campbell, of Menorah, University Law School will address the society. The address will be given at 8 in the evening at 7:30 o'clock.

MENORAH TO HEAR PROFESSOR ISAACS

Professor Isaac's of Harvard Un-
iversity Law School will address the member of the Menorah Society to be held in North Hall, Walker, tomorrow evening at 7:30 o'clock.

The theme chosen by the speaker is "The Story of Rock Drilling Machinery." which will be fully explained, by Mr. George Gilman. Mr. Reuter, and "Coal Handling Machinery," which will be illustrated.

Proctor ice for the freshmen hockey match is held in the faculty dining room, Walker, at 8:30 tonight.
