Schools of Northeast Section To Send Delegates for Spring Meeting

STEWART JOHNSON '93 has been asked by the Office of Student Affairs to arrange the first convention of the A.I.E.E. Student organizations.

Experience is Necessary

Mr. Johnson said that experience was necessary to make a man a good engineer. He said that he had been in the field for ten years and that he had learned a great deal during that time.

ALDERED LECTURER TALKS TO SENIORS

The Essentials of Success Are Described by Graduate of Technology

Advice in abundance was given to the members of the graduating class by Mr. W. H. Bassett '91 in the Aldred Lee Room yesterday afternoon. Mr. Bassett spoke on the topic of technology.

Mr. Bassett opened his lecture with a quotation from Henry David Thoreau, who said, "Good teamwork is the result of good cooperation and good management.

The early graduates of Technology are counted the pioneers, "were pioneers indeed," Mr. Bassett declared. They had to do a great deal of original work, and they were always in a position to learn from others.

Experience is Necessary

Mr. Bassett declared that experience is necessary to make a man a good engineer. He said that he had been in the field for ten years and that he had learned a great deal during that time.

CHEMIST DISCUSSES VITAMIN EXPERIMENT

Mr. Arthur H. Holmes and Miss Blanche O. Berry read the paper on the topic of vitamin experiments. Miss Berry's own work was described by Dr. Stratton, who told of the advance in the vitamin field.

Largest Concern in America

Dr. W. H. Bassett '91, a member of the firm of J. P. Morgan & Co., said that the Institute was the largest concern in America.

Dr. W. H. Bassett '91, a member of the firm of J. P. Morgan & Co., said that the Institute was the largest concern in America.
