PAST INSTRUCTOR TO STUDY ABOARD

Prof. Dawes of Harvard, Former Institute Man, to Study Cable Development

While a student at Harvard University, the late Professor Dawes, who died in January, 1893, was keenly interested in electrical engineering. He was a member of the Institute of Electrical Engineers, and in his later years served as a professor of Electrical Engineering at Annapolis, and then at the Polytechnic Institute in Switzerland. His father as well as many others in his family were deeply affected by his work at the Institute.
