NEW APPLICATION OF KNOWLEDGE

Two Technologists took an active part in clearing the water out of a private well and after the big storm last Thurs-

day. This well, located in the town of Westport, was used for

the purpose of supplying water to the homes around it.

Incidentally the two men who took part in this operation

had been out of work for more than four consecutive hours
during Thursday night and Friday morning.

DENISON TO VISIT ALUMNI CLUBS IN SOUTH AND WEST

Last Night For Richmond

Concert Ice Are Stop

On Long Trip

RETURNS ON MARCH 28

Marking the longest tour of Technology Alumni Clubs yet under-
taken, Dean Denison, assistant treasurer of the Alumni Association,

will leave Tuesday evening for Richmond, Virginia, the first stop on a

trip throughout the South and out to the West Coast. The object of the

trip is to visit the Technical Alumni Clubs in the various cities and

to see the cities in which we can form groups of alumni.

In Technology Track Triumphs

Corporation XV

Visits New York

On Annual Trip

Students Inspect Bell System Laboratories and Hudson River Tunnel

Members of Corporation XV

consisted of six of the most successful

track men of Tech. They went to New York recently to

see the sights of the big city and

to participate in the show there.

Lewis Smith, who scored a

great victory in the mile run last

year at the Tech Meet, was on hand
to see track men from Harvard and

other schools meet the challenge

of Tech. The track men of Tech

won every event in the three-day

trip.

In the Cheverus 660, he was not

successful in winning the mile run.

In the -Cheverus 660, he was not

victorious in any of the events.

His second talk will be given

on Wednesday in the lecture hall of

the new building.

Member of Show

Bonnie T. Deering, member of 1926 Tech Show cast, was

taken to the hospital last Friday

and rushed to a hospital where he underwent an opera-

tion for mastoid. The operation

proved successful and he is now

resting comfortably, on the road

to recovery.

He had been suffering for five

weeks and played the clarinet

on his own instrument.

A platinum print of the
classic landmark of the State of

New York, the Lighthouse at

Northwest Point, has been

purchased by Capt. E. C. H. Lev-

ton, who is considered the father

of modern chemistry, was beheaded during

the French revolution.
