FENCING TEAM IS TO MEET HARVARD TODAY IN WALKER

Several Veterans Are Back To Help Team in First Contest of Year

After practicing faithfully practically all of this first term, although they have been without outside competition as a coach for the majority of the term, the fencing team opened up the new season this afternoon, meeting Harvard in North at 4:30. This is the first time Harvard has come to New York since the late 19th Century, as far as one being with Wesleyan on Saturday of this past December.

These two meets will be about the only opportunities that the Technology supporters will have of seeing the fencing team in action. The remainder of the season’s meets are unknown, however. A schedule of the fencing follomek, with several other teams, is to be announced in the near future.

For fencing is a good team in this good season this year with Captain Bob O’Brien, former Yale man, to place the team at a higher position than in past years. With these veterans on the team, the season’s meets promise to be exciting.

Meet Harvard in the first of these meets and come out and see what a good team the Engineers can crack but they are up to date and are ready for the season’s practice of the present. The crimson color is up, and the future of this year’s team is no exception.

Would you like to get in on a team? Fencing takes place every Friday afternoon in the Quadrangle at 3:00. There are also lectures on the Science of Fencing and on the Value of Fencing by some of the men who have been in the Corps for several years. These lectures have been well attended and build up the team. The men themselves believe very strongly that the team will do well this season. If you would like to be able to give any team a hard battle, come out to practice this season.

START COMPETITION WITH NEW YORK UNIVERSITY

A competition open to all graduates and undergraduate students in the faculty of Science is being held at the New York University, making a desirable design for a model to be of interest to the students, for which the design is accepted and a prize of $25.00 will be awarded for it. The opportunity is an excellent one for all members of the faculty to submit their designs. The design, which will be exhibited, will be exhibited in the Science Library of the University. The deadline for entries is March 15th.

BELGIAN PHYSICIST WILL LECTURE HERE

Professor Th. De Donder, professor of applied physics at the University of Brussels, is coming to this city on March 9th and will deliver a series of lectures on the Institute of the Commission for Relief in Belgium, at the Hotel Commodore in 11th Avenue. The subject will be the nature of the subject of Science, and his lectures will be delivered on 30th Street. The lectures include the following:

FRATERNITY COUNCIL TO HOLD TEA DANCE

On Friday, February 23rd, the Interfraternity Council will hold its first New York College Tea Dance. The dance will be held from 4:30 p.m. until 7:30 p.m. at the Commodore Hotel. The students will be in charge of the dance, and all students are invited. The dance will include a variety of refreshments, including a lively buffet of appetizers, hors d'oeuvres, and hors d'oeuvres. Tickets will be $2.00 each and are available at the theater office.

FRESHMEN AND SOPHOMORES

This annual Midyear competition for positions on the staff of THE TECH opens tomorrow evening at 8 o'clock with a special meeting of the Freshman and Sophomore classes. We can train the number of men set forth in the following list:

News and Sports Department - 10
Business Department - 1
The following officers and the training will be invaluable. If you want to gain first hand experience in business and the ability to express yourself clearly in writing, come to read for the Freshman and Sophomore competition. You need only have had no experience. Come out!
