Dr. Rowe Shows Need For More Athletic Funds

(Continued from Page 1)

ture for wholesome, carefully con-
trolled exercise as a physical com-
plement to their arduous mental la-
bor. The competitive aspect is pure-
ly secondary and competition in pro-
cedure and spirit is the stimulant to
flourish it enters. The value of a
sport is gauged by the number of
men to whom it offers opportunity."

Technology is operating her teams
and providing for her large active
student population with an income
from the Student Tax of less than
$15,500 per annum. Gate receipts,
united with contributions from other
institutions, and in some instances salaries and
extraordinary raises, have added the total
annual expenses to less than $15,500.

The larger institutions of this type
have a gross expenditure of $25,000 or
more while the smaller New England Colleges show a per capita
expenditure of several hundred per
annum greater than any own. These figures were furnished by Dr. Rowe.

Present Tax is inadequate.

"Another factor of complication is the
fact that the most tangible in-
come, exclusive of the Corporation de-
nations which are for specific pur-
poses, is the sum derived from the
Student Tax and this subject is a
considerable varieties depopulation of
financial security.

It is on the rise. Last year, for example, the
entire amount collected was $2,500, and this year
the total will be raised by some $500 as a result of the
registration." Estimates for the raises however have
not increased and the consequent de-
ned will be made up if possible this
year by the cooperation of Technology. A substantial addition of the
situation is very necessary and this
raising itself into an increase in the
athletic apportionment from the
Student Tax.

NEW STEAM ENGINE TO BE INSTALLED

Yesterday concrete was poured
into the molds to build the new Uniflow
Steam Engine. This engine, which
will be installed in the Steam Laboratory, was
obtained from the Fitchburg Steam
Engine Company. Delivery will be
made within two weeks, stated Profes-
sor Jesse J. Eames '02 who is
charge of the work.

Thermodynamic study and com-
parison with the counterpart of
engines will be made, for this new
machine has the advantage of a
direction steam flow. As Edwards
air pump was obtained to operate
the condenser of the engine.

NOTICES

UNDERGRADUATE
T. C. A.
All men with application cards on file in the T. C. A. Employment Bureau
will find it to their advantage to fill in the second term schedule there-
upon.

Prof. Norbert Wiener will speak on
"The Periodogram" this p. m. Wednesday evening, March 3, in the North Hall,
Walker. Free Smokes. Everybody in-
vited.

CATHOLIC CLUB
There will be a lecture by Rev. P. J. Deeks, S. J., president of Butler Col-
lege, on the subject: "The Catholic View of Evolution," next Thurs-
day at five o'clock in room 442. All interested in the topic will find it informative of
religions affinities.

TECH SHOW
Rehearsal of the Cast, Chorus, and
Piano of "The Tech Show" in Walker Memorial Saturday, March 6, at 11 o'clock.
Attendance required.

B. B. TOURNAMENT COMMITTEE
The following men are requested to
meet in Mr. McCarthy's office Thurs-
day, March 4, at 2:30 p.m., for
preliminary drawings for the To-
rnament which will be held in the East Lounge of Walker at half past two. The
pressing officer will be Rupert H. Katzinwick, '02, formerly General Manager of THE
TECH, Volume XLII.

SECOND COPHORNE READING TOMORROW
Mr. Matthew W. Copithorne will
read the present term in Walker G
brary tomorrow evening at 6:45 o'clock.

He will read from the two volumes
in which he believes, North Raleigh has done for the suburban
American boy of today what Mark
Twain did for the American country
boy of yesterday.

FACULTY BOWLING TOURNAMENT OPENS

Forty-eight members of the Fac-
ulty of the Institute have organized
eight teams for a Bowling Tourna-
mont which is being held in Walker
Memorial. The first match was played
yesterday, the Electricals defeating
the Mechanicals and the Chemists
and Chemical Engineers defeating
the Architectural department.

As the elimination progresses, the
remaining eight teams will play for
the Florida, Missouri Bowls, Spe-
cial and Undergraduates, the pro-

cedor Leather F. Hamilson '14 is in
charge of the tournament and 6600
Prize is offered.

DEBATING SOCIETY ANNOUNCES A TRIP

At a meeting of the Debating Society
Saturday afternoon it was announced
that tentative plans have been made
for a debate with Middlebury on March
15 and one with Vermont on March 31.
Both of these debates will be away
from home.

As the Society is a recognized
activity, it was decided that it should
have an office of its own in Walker
Memorial, and steps will be taken very shortly to
bring this about. At present the
affiliates are carried on in the office of
the coach, Mr. Dean M. Fuller, and
regular meetings of the Society are held
every Tuesday and Thursday at 6:45 o'clock in room 343.

PASTOR TO TALK ON IRISH PHILOSOPHY

"An Irishman's Philosophy of
Life" will be the subject of the next
T. C. A. talk tomorrow noon, which
is to be delivered by Dr. J. Edgar Park, pastor of the West
Newton Congregational Church.

As usual, this meeting will be
held in the East Lounge of Walker at half past two. The
pressing officer will be Rupert H. Katzinwick, '02, formerly General Manager of THE
TECH, Volume XLII.

Unfavoring men have learned that they can depend
on Chesterfield for the same fine tobacco,
the same untinguring good taste, always
Chesterfield

Such popularity must be deserved
