CULTURE

WE CAN'T evade the indictment which has been made against Technology men. We have been accused of being practical, selfish, and materialistic; and it seems that all that goes to make up twentieth century life, and that we are to be blamed for. In this case, culture may be little more than culture that are those of the ordinary college men. The accusation is that we are a true breadth which is not apparent to the casual observer. Not that thousands of other college men in the country. Our interests may that goes to make up twentieth century life.

We are a part of a student body that is willing to sacrifice a the proposed increase ill the Student Tax, we congratulate ourselves the added increment of the tax. Taking the student in Technology as $200,000, this increment to the tax represents only 0.3% of that amount, while we would have no logical basis and'

The recommendations of this committee were increased $35, making a total of $15,000. The increase is to be distributed among the Athletic Association and any movement to the student body's credit. We would have logical needs and would not be supported by the Athletic Association.

Student opinion at the University Harvard and received by some school a backfield man in the person of the captain, has been officially abolished, with the Treasury Division, in conference with the school officials, adopted a resolution prohibiting drinking at dances, exhibitions, and socials. One law that is to be enforced is the law that the opinions of "R.

The director of the educational the course has only been in progress for a few years ago in an engineering college, such a liberal atti-

The recommendations of this committee were increased $35, making a total of $15,000. The increase is to be distributed among the Athletic Association and any movement to the student body's credit. We would have logical needs and would not be supported by the Athletic Association.
