RIFLE TEAM HAS SUCCESSFUL SEASON

Oddity enough, the entire team is members of the engineering unit of the R.O.T.C. of the Massachusetts Institute of Technology. A group of men to compete in the National Rifle Association meet is chosen by a selection process that eliminates those who are not able to meet the necessary standards. Those who are selected are given special training, and in the end, the entire team is able to supply every man with the wrong impression of what metallurgy really takes up. He will have, the wrong impression of what metallurgy is and especially what it is not. Many people...
