JUNIOR WEEK PLANS ARE NOW COMPLETE

T. E. N. WILL SHOW MODEL LOCOMOTIVE

Display Features Appearance
"Of Railroad Issue"

In connection with the Railroad Issue of Tech Engineering News which appears today, there is an exhibition of a model locomotive of the 4-6-4 type in the Main Lobby. The model is the work of Mr. Frank E. Ayer, of the Boston and Albany Railroad, built in his spare time extending over two years.

Even to the reversible headlights, wheels and the large, the model is operated under its own steam power. The engine is a 1/2 copy of every dimension being in scale.

Promoting "Trenn's Disadvantages of Railroad Management," Edith Lea of 92A or of the Transportation Department, has written a discussion of the problems of the viewpoint of the executive, Mr. Arthur J. Morrison, of the Westinghouse Electric and Manufacturing Company is the author of "The Application of Electricity to Railroads - the Demand for Size and Speed and the Resulting Cost of Design on New Model Locomotives.

NOTES ARTISTS' WORKS

(Note continued from Page 1)

Whitney of Massachusetts uphold their reputation in this endeavor. In all there are fifteen pages of art work arranged in this order: the above-mentioned letterpress, a drawing by Charles E. Upton, a lithograph by W. C. Woodman, a wood engraving by A. Shepard 26, president of the Student Council; Secretary Griffin D. Jemison 11.

From the above it will be apparent that this is a very special issue and one which should be read with care.
