BOWDOIN DOWNED BY TECHNOLOGY FENCERS
(Continued from Page 4)
team, overcome out the air. The Saturday of Bowdoin was an interesting man to watch in this event. His style of tugging up and down made him hard to reach. He wasn’t quite bumped enough to beat stilts of Technology and lost a fast boot to him.
Saturday’s game saw the defending La Place, 1st, Harris, M. T. defeated the winning Outing Field, 1st, Harris, M. T. 2, 18-12-

day. Any man interested in a man

LOWERING IS WARNER’S SUBJECT

Assistant Secretary of Navy

Tells Course XVI Men

Since airplanes are small units, ex-

perimental models can be made

which is unlike the case with war-

ships, the Honorable E. P. Warner.

Assistant Secretary of the Navy

Addressed the students that are

speaking under the general topic of

THERE ARE THREE STAGES OF PRO-

cessing. Experimental construction

one of two phrases, ser-

vices to 30 or 35, and an

purchase of as many as conditions de-

mand and such orders.

Professor Warner told in detail of the

new law concerning this phase of his

work. The awarding of contracts

on the government.

have made the commitment of design-

more sure and has created a Public

and Defense Board.

In the opinion of Prof. Warner, this

bill, which is about six months old, is

a great improvement over the old,

threat competition which was

the industry, and I believe that it will

be a great boon both to the industry

and this government.

THE LOUGHER

(Continued from Page 3)

More power to the T. C. A., says the

Lougher, for he likes to see an or-

ganization with initiative and convic-

tion that will not hesitate to try something

new. Three bloomers in the

association’s shady block bulletin board

practically this interesting notice:

STYTT WILLSON

TO-DAY NOON

L T-DAY IN J. A. M.

Here is an inspiration indeed. Think

of the wonderful effects a world rev-

olution if we were to have the chance

of stopping off a pleasantly rejuvenating

bath in an orchestra of col-

leges, and the life. For appar-

ently the T. C. A. has this in

view, and why not? The Lougher

is a must.

NOTICES

OFFICIAL

Reports on experiments performed in

the Dynamo Laboratory during the

first term of this year (or previously)

may be obtained at the Instrument

room (849-265). Reports not called

for by February 28 will be destroyed.

tained in any official capacity, and the

First Marshal is not autono-

mously chairman of the Student

Committee.

The first meeting of the Senior

Week Committee will be held in the

Committee Room on Tuesday, March

1, at 5 o’clock.

FRESHMEN ELECT NEW

LEADERS NEXT WEEK

Former Section Leaders Hold

Last Meeting of Term

New section leaders for the fresh-

men class will be elected next week

as a result of the action taken at the

meeting of last term’s leaders in room

1075 last Wednesday. This decision

was made because of the fact that the

 rearrangement of sections which was

made at the beginning of this term

has much more leeway in the

nature of the control and the

representation of the new leaders no

longer remains so.

week one of the former lead-

ers will visit each of the sections, and

will take charge of the elections in the

sections. In this connection, the new

section leaders will be held in room 1075

on Monday to ascertain the sections

in the various men.
