OPEN HOUSE NIGHT TO REVEAL STUDENT LIFE

Technology at Work as Well as at Play will Be Portrayed To More Than 15,000 Visitors and Will Try to Disprove "White Factory" Cognomen

Technology at work as well as in the laboratories and in the fields has been portraying the advantages that technology's facilities for student development are to be displayed in the public at large. April 30 when the Annual Circus is held will be the date of the event.

The object of Open House Night is to make Technological procedures of the departments of Technology and the Library available for public inspection. It is to be an opportunity to show what students and alumni are doing in Industry and Science.

The Publicity Committee, E. D. True '27, through their efforts will try to attract a large number of visitors. Other activities will attempt to keep the interest of students.

Shops by Departments

It has been the practice of each department to put on a special display. In addition to displaying its equipment, some display of technical work in their branch, others will have a special feature which they wish to emphasize will be taken to the event.

Invitations are being sent to all Technical students, alumni, and non-students, to officials of the Commercial and Industrial World, to all preparatory schools near Technology, and to schools, and the committee is urging all those concerned to attend.

Plans Tentative

For 1927 Circus - To Have Parade

Committees For Affair Have Been Formed. Parade Will Have a Calliope

Plays were yesterday afternoon given for the first time as far as was possible. The committee, and the committee for the Calliope, will decide on the Calliope before the day.

Several things will be new in the Circus. The Calliope will be taken by the committee, as well as the Calliope.

Tech Circus 37 were chosen. The Calliope for Tech Circus 37 will be taken by the committee, as well as the Calliope.
