WHAT DO YOU KNOW About The Institute?

Author of Today's "What Do You Know" Queries

1. When and by whom was the Charter granted by the State of Illinois?
2. What were the three integral parts of the Institute as provided for in the Charter?
3. How many of these integral parts have been employed effectively at that University?
4. When did the Institute graduate the first class?
5. Name the past presidents of the Institute in order of succession (not including Acting Presidents).
6. Where were the Institute classes first held?
7. When was the Institute moved to the present site?
8. Who was the architect of the present building?
9. Who were the builders?
10. What is the extreme height of the dome, above the roof of the Great Court?
11. What is the approximate area in square feet of the first floor of the main group of attached educational buildings?
12. Which ranks of the staff of instruction constitute the Faculty? (Without individual designation.)
13. Name the recognized Departments of Instruction.
14. Which Department has the largest enrollment?
15. What are the principal places of academic administration?

J. Potter '03, dean of Engineering, head of the Human Engineering Department. His address will concern itself with the personnel system employed effectively at that University; good illustrations, the personnel system at the University Club. A discussion on thefuture work of the class of 1927, to be given on Tuesday, March 29, when the course in that branch of engineering will be described. It is expected that Mr. Johnson O'Connor, assistant professor of Mechanical Engineering, will give to the class an account of the work which the Technicians will play and the part the engineers at the Boston and Albany offices of the companies are invited to present. Mr. O'Connor will talk to the class about the work which the Technicians will play at the Boston and Albany offices of the companies which the Institute is going to provide for its young men. The two talks will State that the Institute is going to provide for its young men. The two talks will be given on Tuesday, April 5, and Wednesday, April 6, at the following times:

1. Tuesday, April 5, the schedule to be 3:00--Electrical Engineering Society's meeting in room 10-250, from 3 to 4 o'clock afternoon between 3 and 4 o'clock.
2. Wednesday, April 6, the schedule to be 3:00--Electrical Engineering Society's meeting in room 10-250, from 3 to 4 o'clock afternoon between 3 and 4 o'clock.

NOTE: This is the first in a series of questions covering various phases of student life. Answers to today's questions will be published in Friday's issue.

SENIORS FAVOR THE INSURANCE METHOD

Present Choice of Endowment Committee Is Approved By Class of 1927

Approximately 90% of the Seniors have chosen the insurance method of endowment, according to the report of the Committee of 1927. The overwhelming majority of the members of each class have been signed up in the Monday, April 5, the schedule to be

Tuesday, March 29, when the course in Chemical Engineering will be described. It is expected that Mr. Johnson O'Connor, assistant professor of Mechanical Engineering, will give to the class an account of the work which the Technicians will play at the Boston and Albany offices of the companies which the Institute is going to provide for its young men. The two talks will be given on Tuesday, April 5, and Wednesday, April 6, at the following times:

1. Tuesday, April 5, the schedule to be 3:00--Electrical Engineering Society's meeting in room 10-250, from 3 to 4 o'clock afternoon between 3 and 4 o'clock.
2. Wednesday, April 6, the schedule to be 3:00--Electrical Engineering Society's meeting in room 10-250, from 3 to 4 o'clock afternoon between 3 and 4 o'clock.

NOTE: This is the first in a series of questions covering various phases of student life. Answers to today's questions will be published in Friday's issue.

VI. A Man Injured At Pittsfield G. E. Plant

Being unlucky enough to be struck by a falling object in the main lobby of the Pittsfield General Electric Company's building at 10 o'clock recently, while engaged in the main lobby, a heavy plate glass window, which was being installed, fell to the ground. The man was instantly killed, and the injured party at the first aid station.

Weymouth Station Subject of Talk

Boston Edison Engineer Will Discuss Novel Plant

A semi-technical discussion of the Boston Edison Company's "Dedham Sub-station" will be given in the lecture hall of the Main Building, Thursday evening, April 21, 1927, at 8 o'clock. The lecture will be given by Mr. Fisher, who is in charge of the sub-station at Dedham, and who has been a training at the Whitter Machine Company, Boston. He will discuss the Dedham sub-station, which is the most modern and efficient system of electric power distribution in the United States.
