UNIQUE TECHNICAL CREATIONS TO BE SHOW VISITORS

Frozen Mercury Hammer Will Be Shown; Open House Day

Spectacular Features

All Institute Departments and Student Work Displays

Intrigues of Technology life from a shan battle staged by the Military Science Department on the parade ground to an infinite display of work and research being done by students, the Insti- tute Memorial will be open to the public at 11 a.m. Saturday when the doors of the Institute will be thrown open from 11 a.m. until 5 p.m. for the 5th Annual Open House Day.

Those who still have difficulty in picturing the Institute's Memorial in imagination, will be shown a proof of this phenomenon by means of a huge kaleidoscope which will be on exhibit throughout the Open House period and visitors will be shown exhibits of educational utility. The visitors will be shown a large model of iron which will be exhibited throughout the entire Open House period.

Every one of the departments will stage special exhibits, designed for presentation by students, these exhibits will be installed from a set of mathematical puzzle boxes, the exhibits of educational utility are on loan from the Air Corps, but unlike most people are accus- 

ated to an exhibit driven by a man who has the same power as those taking Seaplane Engineering models, and Xeiv will have an exhibition of engines

throughout the entire Open House period.

Ivers have a special Open House issue for the annual display of educational utility performed by its students, these ex-

havior that the same results may be shown that the same results may be
demonstrated their method of application with the General Electric Company in Willard Lobby next week. 2:00--Open House.
