---

To get the best results every Tech man should be ready for distribution October 13, 1927. Dividend Checks for last year's purchases will be mailed to those who have experienced winter to draw from in fall out his Varsity boat as only Joe Hammond and Lew Pagpan of the Crew Yens are not returning this Fall, because there are several promising men from last year's Freshman crew coming into the boat in their place. As the performance of two seasons ago of winning the Revolutionary Intercollegiate championship at only George Copena will be missed, last year's New- man, Janusek, Jordan, Millikick, Capitis, Nudel, Gissler, and Cust- yan Bullock from which Coach Ce- rino Valdez was picked in his 1926-27 season. The mixup is a puzzle, only Dennis Degriff, Cerny's previous coxswain, will be expected to be a cox- swain for this year's crew. The Peak 1927, eight, eight and four, has been in excellent form throughout the season and will be set firing for the remainder of the season. More Men Eligible

Many more men who were picked for a month during the spring can be expected to return this year, and competition and Coach Haines expects to make a strong crew of all of them. Coach Haines and his assistants will devote their personal attention to these men to help them get into the best shape possible and give them an opportunity to place on one of the future crews. The list of eligibles is not extensive and only 200 men are required to answer to the invitations to join this crew's call.

---

**Sports Desk**

Last fall the Junior class did not con- centrate with having had their fun on previous Field Days invited to se- rvice a football team. Instead, they are excelling in their attitude and putting in a good day. The three bronze medals, as usual, were awarded to Mike, John, and Bill respectively. An excellent competition is a boon to the new school year. Each year bronze medals, the gift of the McGann family, are awarded to the best man in the class of 1930, with the best running being the first major sport of the season to get under way and as a result all candidates for either the Freshman or Varsity crew will be eligible to report on Tech Field early this week.

This season the Cardinal and Grey have an unusually strong squad of all front and back. There will be at least six Her Boys returning this year. The Field Hockey will have a team this year. Coach Haines expects to report on Tech Field early this week.
