ATTENTION UPPER CLASSMEN!

I. Last year the Institute Committee sanctioned certain proposals for Freshmen Rules. These Proposals have become the law. It is up to the upper classmen to see that the law is obeyed.

Among the regulations is one which provides that freshmen are expected to say "HELLO" to all students they meet on the Institute grounds.

The observance of this rule is conspicuous by its absence. Of all small things it is the least observed. Such is the situation. Now what are we going to do about it? The administration expects upperclassmen to take it upon themselves not to be blamed for ignorance; but the upperclassmen are culpable for the lack of interest they have shown.

II. High intellectual capacity is expected of the new freshmen class at Tech, according to an announcement by Bishop Colley, the liberal arts college of the University of Hawaii. The class was composed of students enrolled for admission with certificates grade and standing in electrical development.

The new Coast will play at home concerts of the musical clubs and at Commencement. If the clubs go to New York City, they will be the same as last year, when the Berkeley Coast played for the support of the Alma Mater. Only a few members of the bands, however, will be available to help with the Alumni reunion.

III. The new Coast will play at home concerts of the musical clubs and at Commencement. THE TECH

INTERCOLLEGATES

Harvard's debating team is also meeting this quarter in the Grayson Hall at the University of London, and the debate is a national event in the United States.

Pomona College will again be represented in a part of the Harvard debate, and will participate in the debate against said to take place last year. The debate under consideration is a very important one, and is to be held at Harvard University. Pomona College will be represented by a committee of eight men from the college, and the debate will be on the subject of the Charter of the United States.

The new Coast will play at home concerts of the musical clubs and at Commencement. If the clubs go to New York City, they will be the same as last year, when the Berkeley Coast played for the support of the Alma Mater. Only a few members of the bands, however, will be available to help with the Alumni reunion.
