Dr. Arrhenius, Noted Scientist, Dies

Dr. Arrhenius, noted scientist, died last Saturday at the age of 72 in Sweden, where he had been a resident for many years. He was a member of the Royal Swedish Academy of Sciences and was awarded the Nobel Prize in Chemistry in 1903 for his work on the theory of the rate of chemical reactions.

The student body of the University of Stockholm has expressed its deep sympathy with the family of Dr. Arrhenius and has made a donation of $26,000 in his memory. The money will be used for scholarships and other academic purposes.
