STRATTON RETURNS FROM EUROPEAN BUSINESS TRIP

WASU, S. DELEGATE AT CONFERENCE ON WEIGHTS, MEASURES

Was Away For Seven Weeks Pleased at Progress of Building Program

PRAISES FRESHMAN CLASS

Returning to his desk yesterday morning for the first time in over seven weeks, President Samuel W. Stratton of Technological University, after an active three-week tour of the western states, was particularly gratified to find that the freshman class was showing much better progress than the expectations of the faculty. As a matter of fact, the freshmen were working so hard that the faculty decided to extend their vacation by two weeks.

The freshmen were sent to Europe by the United States Government, as part of the delegation to the International Conference of Weights and Measures, which was held in Paris in September. The tour was arranged to study the methods and equipment used in other countries. The tour was in the French capital by the students. In addition, the students were exposed to the cultural and educational opportunities in Europe.

diversion, it was said. "It gave me a feeling of satisfaction to be back in class and to see the progress being made on our extensive building projects." I am glad to see an interest in the future of our class and the progress being made on the new buildings under construction.

Money Raised Through Alumni Gifts by Traditions Committee

By means of money raised through various funds, the Technological University's yearly income has increased. A portion of the money is used to fund scholarships, while the rest is invested in the university's future. The students are encouraged to contribute to the university's success.

The Technological University's President, E. R. Stratton, stated that he was proud of the students' efforts and the university's progress.

The Technological University has received numerous donations from alumni and friends. These donations have been instrumental in the university's growth and success.

Head Usher: Henry B. Dean '28

Excerpts From Former Author's Book

Given by Stars at Smoker

In Walker Last Night

TRYOUTS WILL BE SOON

Tech Show 1928, the 30th annual show of Technology, officially put on under the leadership of North Hall, Walker Memorial. Acting as chairman of the technical committee, Paul A. Johnson '30, General Manager, and John S. Middleton '28, Publicity Manager, of the Tech Show for the past 29 years, prepared and organized the show last year.

Morel, whose home is in Greenwich, Conn., is a graduate of Yale College, having been graduated in 1919, as a freshman. During his first and second years at the Technological University, he was on the staff of the Tech Show, but was not able to attend the Tech Show the same year he was on the Tech Show staff. He was graduated in the Tech Show year. He was elected to the editorial board of the Tech Show in 1919, and also served as a Dramatic Critic for the paper. He is a member of the Sigma Alpha Epsilon fraternity.

Morel Outlines His Buck

Upon the conclusion of Morel gave a fine analysis of the Tech Show and its various features. He dwelt upon the success of the show and its future plans.

Morel is a popular figure among the students and is well respected by the faculty.

STUDENTS COLLECT CO-OP DIVIDENDS

The total dividends for the Harvard Cooperative Society in the Technology Branch are $78,000 as compared with $76,000 of last year. These dividends are paid annually to all members on purchases made in the society. The total dividends for the Connecticut Cooperative Society in the Technology Branch are $78,000 as compared with $76,000 of last year.

There are no dividends on purchases paid for in cash, and 8 per cent of those charged. There was a bonus of 50 cents on each dividend check.
