The Passing of Our 'Ah Me'!

All undergraduates and Sophomores, except the senior number of freshman, with deep concern, have read the news of the passing of a staff that has kept the Tech for many years. A recent order by Director Ricketts to remove the students who have been classified as hazing, has brought a storm of protest and criticism. The student body is left with the decision which may be the most difficult of its existence. The students are divided in opinion, some being classified as hazing, others being considered as justifiable. The Tech staff, which has always been in the minds of the powers, is now looking for a new outlook that naturally characterizes a local paper. In the future, more efforts will be directed toward that end. The Tech staff, which has always been a milestone for the college, is now looking for a new outlook that naturally characterizes a local paper. In the future, more efforts will be directed toward that end.

The Tech's order eliminates any possibility of the term 'hazing' being used in the future. The Tech now will not entertain the idea of such an action.

The Director's order says that the Tech staff will cease to function. This idea is not a new one, but has been considered for some time now.

If any undergraduate forces a view that has been expressed by the Tech staff, the order will be rescinded. Should the Tech staff continue to function, it will be under a new name.

The Tech staff has always been a milestone for the college, and it is now looking for a new outlook that naturally characterizes a local paper. In the future, more efforts will be directed toward that end.
