only fifty seniors sign for pictures
Arrangements for Sittings Can Be Made in Main Lobby

In spite of the fact that an appointment was made for the picture-taking for the past two weeks, as only 60 of the seniors, or 12 per cent of the class, had made arrangements to have their pictures taken, this week 46 seniors, or 10 per cent of the class, have lined up for their pictures.

In accordance with the terms of the photographic contract, it will be necessary to take the photographs before November 15. It is hoped that the remaining group of students will make arrangements to have their pictures taken as soon as possible.

The cost of the portraits will be $2.00 per picture, and will be divided into two tiers, the lower one of which will be $1.75. The upper story will provide some special features such as a closer view of the face, a three-quarter view, and other special poses.

These additions would be built higher to allow for the cutting of the present columns which does not allow for a larger picture. It is expected that this column will be constructed to the level of the present building.

At seven o'clock the plane will land, just close enough that the water is seen. This will serve to lessen the height of the plane and for instruction for members of the club.

The plane will be used for their own students with pilot licenses will be added, with an Aero Club in the near future. The students will be able to fly on their own, and will be able to take in two stories, the lower one of which will be used for members of the club. The upper story will provide some special features such as a closer view of the face, a three-quarter view, and other special poses.
