Admission to the Massachusetts Institute of Technology is determined by a combination of college entrance examinations and high school record. The entrance examinations are held at the Institute in September. In June applications for admission are considered. Appointments are made in advance by the College Board.

Graduate courses leading to the degrees of Master of Science, Master in Architecture, Doctor of Philosophy, Doctor of Science, and Doctor of Public Health are also offered. The Institute offers a wide range of courses in Chemical Engineering, Organic Chemistry, Industrial Physics, Electrical Engineering, and Aeronautical Engineering have been established.

The graduate courses of study are divided into three groups: Graduate Study and Research; and the Report of the President and the Treasurer.

To be admitted to the first year class applicants must have attained the age of seventeen years, and must satisfactorily fulfill entrance requirements in Algebra, Plane and Solid Geometry, Trigonometry, Physics, Chemistry, English, History and French or German and two units of elective subjects. Examinations are required in Plane and Solid Geometry, Trigonometry, Physics, Chemistry, English, History, and two units of elective subjects. Entrance examinations are held at the Institute in September. In June applications for admission are considered. Appointments are made in advance by the College Board.
