Indian Educator Will Lecture At Institute Today

Will Speak on 'The Students' Place In Future World' 

Development

Dr. George A. Aranlade, noted educator, will address the faculty and students of the Institute in the morning of this afternoon, his subject to be "The Student's Place in Future World Development." 

Dr. Aranlade was educated in various countries of Europe, graduating with honors from Cambridge University, in the 15 years prior to his public career. Dr. Aranlade has been prominently associated with the Indian Home Rule Movement, in the great reawakening of India's political awakening in India, and recently with the development of the Labor Movement throughout the world. 

Dr. Aranlade in 1917 with Dr. Anne Sullivan and Helen Keller founded the National University of India, becoming its Principal and head of the Teachers' Department. Dr. Aranlade has also had a conspicuous part in the Indian Labor movement, and has just come from a Labor convention in Berlin which he made honorary head of the entire German Labor Federation. 

The lecture is being given under the auspices of the T. C. A., and promise to be of unusual interest to M. T. men. Dr. Aranlade demonstrates energy, enthusiasm, and vision make him an interesting lecturer as he can be seen. The lecture in Stewart Hall tomorrow night on "Anthrone, the home of science," by Dr. Beresford will be the opening of the annual banquet of the Annie Besant Lodges of the American Universalist Association.

FIELD DAY TEAMS

BANQUET GUESTS

(Continued from Page 1)

Field Day festivities have been very un- 

usual in the past. 

After each of the Field Day captains had made a short speech, Dr. Rockwell commented upon the sportsmanship in which they took their defeats as well as victories. Thus, he said, 

"The passing around of the Field Day cup concluded the banquet. As such man handled the cup, he gave his thanks, clax, and home residence. When the cup finally returned to Tech Field Day, the evening, he parted of the "informer" or apple jibe to the health of those present.

The University of Arizona is staging a mountain contest, a match between the mountain styled of a landscape, and the mountain styled of a landscape.

"Have a Camel!"

Some call it mellowness...

Some say that Camel is the mellownest ciga- 

Some that it's mild and 

Some of them say the very best, in one, and that it is the very life of a man's enjoyment. Camel's popularity today is the largest that any cigarette ever had. And, it costs something to make this kind of a smoke. It costs the choicest tobaccos that money can buy, and a blending that speaks for itself, not for any price. Each Camel cigarette is as full of value as the world of tobacco can give. You can be sure of smoking pleasure, serene and full, in these quality cigarettes. Smoke all of them you want; they simply taste the taste. 

"Have a Camel!"
