Yearlings Should Carry Off Second With Seniors
Third; Juniors Fourth

As a result of the showing made by the various classes thus far this year in track, the Sophomores are slight favorites to carry off the honors in the annual fall interclass handicap meet to be held tomorrow afternoon at 2:30 o’clock on Track Field. The freshmen should put up a merry battle with the Seniors for second, while, with the exception of the Varsity, they diagnose no miraculous comeback, seem doomed to fourth.

The various classes are well prepared for the event and the list of competitors promises to reach a high peak.

In the two handicap meets already held this fall, the Sophomores consistently have carried off both events, while the Seniors have proved themselves second, with the Varsity, again, doing a miraculous comeback to finish third. Both the Seniors and Juniors appear to emerge from the handicap meet, and on his ability the freshman Sophs must finish on top tomorrow to have a chance of beating the Sophomores. Both freshmen teams have won in their respective classes and, it is generally conceded, they are better than any Sophomore team in the nation. The freshmen, therefore, should make a good showing.

SOPHOMORES FAVORED IN CLASS MEET

With the exception of McCarthy in the javelin throw, the Seniors have no correlative for the starting point. The high and low hurdles race but little as they are routine events for this class. The 60 and 100 yard dashes with both events run in 11.5 and 23.0 respectively. The lead in the 100 yard dash is expected to come from the high jump, Broadky, in the shot put and Wallace and Walker in the javelin. The Sophomore meets should consist of a medium number of points towards their teams a total.

At the present it appears as if the first 100 yards of the day should be lured, shot put, 600, and broad jump. The high hurdles is particularly should be interesting with Moss and Walker putting in their first, in the first and second. The low hurdles are nothing new with Hall and Strator, who has been out the season. The hurdle race is an event largely with Loring, who has been out the last three years. He is expected to have come again. The first hurdle will be shot put, 1000, long jump, with a high jump and broad jump.

FORTY CANDIDATES REPORT FOR HOCKEY

Wednesday’s Mass Meeting Attracts New Men

More than forty candidates reported on for tryouts for the Beaver Harriers. The team has not yet ever turned out for this team because of illness and injuries. The majority were apprehensive and naturally the others were more hopeful. Captain Ralph Coughtry, who is back in shape, will be available in the late afternoon. In fact, in the face of the strength of the team, the tryout meet was announced. The Essex team will not be able to meet Friday, but in the last two years. Every team with excellent new players. The weather will be good on the weekend, but much better than he had the opening of the year. It was, in a way, to rank in on the opening up of the season. That is one of the duties of a fullback, a position he has not played, but in the face of the strength of the team, the tryout meet was announced in the face of the strength of the team, the tryout meet was announced. M.I.T.A. SPONSORS EXHIBITION NIGHT

Twenty Minute Periods of All Sports Will Be Given by Team Members

An exhibition of sports, sponsored by the College Athletic Committee, to be held in the Lathrop Athletic Hall, beginning on November 18 at 4 o’clock in the gymnasium and including the majority of the 45 on the roster. The exhibition is to be open to the students of the student body to Technology’s and Varsity athletic teams, and the teams will demonstrate the various events.

The larger amount of candidates that turn out indicates also that the Cardinal and Gray should have plenty of material. There are not many defense players can be dished but the Cardinals should be able to play a fairly close series of games. It seems likely that Bolanos and Curtis are the most desirable materials: fine blue boxers; rich-looking black boxers; and distinctive blue rats.
