Mysterious Track Meet Will Be Held Saturday

No handicap track meet will be held on this campus Saturday, but a mysterious meet is being scheduled at the Harvard and Bill Meiss when their chances are about to happen and the game has been arranged with no secret whatsoever. Happens, there will be a large number of track meet on hard to complete.

MEN-OFF CLASS PRESIDENCY

Greater Percent of Freshmen Class Must Vote Than Ever Before

(Continued from Page 1) Brooklines. He preparatory school at Chaucer Hall, where he attended for three years, and for one year he went to the Boston Commercial High School. He was a member of the Dramatics Club at Chaucer Hall, and an all-around student. At the Institute on Field Day he acted as one of the charioteers, and he is now one of the Tech Show. J. P. Brown, a native of Cambridge. He prepared for the In- stitute of Technology at the High School, from which he graduated last June. When Brown came to the Institute in September he went out for the track team. He has been a member of the baseball team and is now in the competition for crew manager. He is also much interested in literary work and at present is in one of the com- mittees on the Yearbook. C. Philip Hendricks attended King- dom High School in New York, where he played Varsity football and baseball, but his father was much of the dramatic club and editor of the year- book. He was the leading all-round student at the end of the senior year and held the position of manager of the football team. Brown, Hendricks is now in the English and French language. At present he is working on the competition for Track Manager. Victor C. Bradley comes to the Insti- tute from Springfield, Mass. His preparatory work was at a peculiar high school in Springfield, and he was very prominent there in school activities, being a member of the track team, the long distance and running team. He is highly thought of by the Institute, and is now the competition for Track Manager.

PRIZE COMPOSITIONS RECEIVE BOIT PRIZES

By the will of the late Robert A. Boit, the sum of $4,000 was left to the Institute to be used in ways of which it was to be used in annual prizes to "stimulate the interest and best use of the English language." These prizes were established in 1912, and are now awarded to members of the Sopho- more class in English and History on the basis of the required writings of the class. The winners of the 1st prize in the subject of History of last year have been announced by Professor Peace, Head of the Depart- ment of English and History, as follows: Hunter House, "A Puppet-Master's Story"; A. G. Member, Jr., "H. G. Wells and the Human Adventure"; A. P. Mahoney, "The Crecent of Art"; A. G. Beedle and J. G. Beach, "Realization"; Lewis B. Boyse, "Report on Samuel Butler's Erewhon." The judges were Professor Charles H. Rand, Professor of English at Tufts College; and Mr. B. Fuller, and Mr. G. B. Morley, Professor of English at the New- School for Industrial and Technical Education.

Five Men Out for Class Presidency

Gasoline To Be Subject of Next Chemical Movies

Three Seniors who have not had their pictures taken by the Portrait Section of the Institute this fall are urged to make appointments for sittings with the photographer. The ap- pointment book will be in the Main Lobby Monday morning and remain there for the rest of this week. Students who have not made appointments will not have their pictures in the 1928 issue.

Who will scout this electrical frontier?

Whether in the Bell Telephone System, in the Western Electric workshop or in the various operating companies, telephone executives are always on the lookout for better methods to serve the public.

It is significant that your true tele- phone men remain with the business of living in his blood, never speaks of having "perfected the art of communication," and this in spite of the fact that America, by its solid achievements in telephony, shows the world.

Work in the Bell System demands the bold curiosity of pioneers and the infinite patience of pioneers who, like Columbus, explored the shores beyond "and when their chance came they were ready."

Bell System

A nation-wide system of 9,000,000 inter-connecting telephones

"Our Pioneering Work Has Just Begun"
