A froshman can't do much about it after all, according to Professor Alonzo F. Burton, who founded the Freshman Smoke in 1866.

"I believe it would be a great mis-Understanding if froshmen were to try to go through with their plans," Professor Burton pointed out in a talk last night to the Freshman Smoke. "The Froshman Smoke was started in 1866, and it is still going strong." Professor Burton said.

The Froshman Smoke was started in 1866 and has been in operation ever since. Professor Burton said that he was a member of the first Froshman Smoke, and that he had been an active member ever since.
