SQUAD DISPLAYS REAL POWER IN NEWTON MEET

Technology's wrestling team started off the season with a bang Saturday night, in the Hangar, by defeating the outfit from the Newton High School by the Cosmos. The contest between Captain Jack Culley's men had practically their own way with the invading team, taking all but one of the bouts and scoring two falls. Culley and Burke made the two falls for the Beavers while the Newton men won their openclass victory with individual wins in the middleweights by winning the two 135-lb., bouts and one 145-lb. event.

In the lighter weights, Technology was able to make a clean sweep. Paul Smith went on with a beautiful bout to win the 113-lb. division while John Cooper defeated Gates in the 123-lb. division.

The interclass matches, however, were not so successful for Technology athletics. A prominent member of the varsity squad overlooked his running trunks, but he was not taken seriously and went on to win his match. A. A. A. cross country championships.

The class of 1928, winners of the 1926 meet, have the responsibility of selecting the three regulars. It is the first opportunity for the team's supporters to see the men in action, and it will also be the last one until around the middle of April, when the big conference ends.
