BASKETBALL TEAM WILL MEET BROWN TOMORROW NIGHT IN FIRST BIG GAME OF THE SEASON

NORM McCLINTOCK IN LINEUP THAT WILL START GAME

BROWN PLAYS HARD GAME

 osciled up by the return of Norman McClinton to the fold, after he had been rescued as lost, the Cardinal nine started to get organized. Going against Brown tomorrow night could signal the start of a winning streak for the Canons, as the invaders went down to defeat last year at the hands of practically the same outfit as will oppose them tomorrow. Berlin jail's (Continued on page 3)

MUSICAL CLUBS TO GIVE XMAS DANCE

Concert and Dance To Be Held at Whitney Hall Next Friday Evening

One of the big affairs of the term in Technological's social season will take place on December 15, when the Musical Club will hold its annual Concert and Dance. As has been the custom, Mr. R. C. Purdy, service manager of the Ford Motor Company, will preside at the event. The program will be interesting and entertaining, with a concert during the earlier part of the evening starting at 3:30, followed by a dance at 5:30.

The program will be the first undergraduate musical production of the year, and will be the culmination of the summer's rehearsals. For this reason the Musical Clubs have had a successful season, and with three openings behind them, and three more to come before the Christmas concert, the students may expect a good showing, for they will be able to make a long way toward making the Christmas program the best that a college organization can present.

All nominations must have the approval of gaining the victory. The入侵者 went down to defeat last year at the hands of practically the same outfit as will oppose them tomorrow. Berlin jail's (Continued on page 3)

Engineers Outline Research Work in Milk and Rubber

Experts Outline Research Work in Milk and Rubber

Address Open Meeting of The A.C.S. in Walker Tonight at 6:30

New applications of chemical re- search to milk and rubber industries will be the theme of today's meeting of the Northern California Section of the American Chemical Society, which will be held at Walker tonight at 6:30. The meeting will begin at 6:15 and the following business will commence at the same time: The Musical Clubs may offer any night after 6:30's closed.

NORM McCLINTOCK IN LINEUP THAT WILL START GAME

McClinton Returns to Squad

Shocked up by the return of Norm McClinton to the fold, after he had been rescued as lost, the Cardinal nine started to get organized. Going against Brown tomorrow night could signal the start of a winning streak for the Canons, as the invaders went down to defeat last year at the hands of practically the same outfit as will oppose them tomorrow. Production and sales departments of the Ford Motor Company, as announced by Mr. R. C. Purdy, service manager of the Ford Motor Company, will be presiding over the showings of "The Ha'iry Ape." The play is the first venture of new cars as a part of the annual amusement program opening an auspicious opening season.

The Ford executive pointed out that new cars have been made about the play and Mrs. Allen A. Rogers, in charge of the Junior Prom Committee, has been asked to submit the first set of tickets. The "Ha'iry Ape" is described as a "one of Yesteryear and Modern Life is Elstrot. As she follows the day she may make all the theme of

No definite promise could be made. The film is not of the modern; perhaps it is better not to comment on it Rotgers Building.

Dr. Richard W. Hartley, instructor in physiology, will begin the evening with an address on "Recent Researches on the Point of Commutation." This evening he is expected to outline the progress and recent developments in the field of chemical research in the dairy industry.

"Commutation" will be the subject of the colloquium to be held by the Department of Dairy Industry at the evening's meeting of the American Dairy Association, which will be held at Walker tonight at 6:30. The meeting will begin at 6:15 and the following business will commence at the same time: The Musical Clubs may offer any night after 6:30's closed.

H. A. Baskin, Jr. will talk on "Recent Researches on the Point of Commutation." This evening he is expected to outline the progress and recent developments in the field of chemical research in the dairy industry.

"The Ha'iry Ape" will be presented in the usual fine, but with no definite promise could be made. The film is not of the modern; perhaps it is better not to comment on it Rotgers Building.
