In an election characterized by a small turnout of voters and close races between the candidates, Class of 1932 elected five committee members on Wednesday. The successful candidates are: C. B. Allen, C. C. F. Funk, W. G. Glenn, C. S. McCague, and W. Young.elect

**FULL HOUSE SEES "HAIRY APE"**

Students Pack Commons Room To See First Presentation Of Dramashop

As enthusiastic reception was accorded the first public showing by the Dramashop of "The Hairy Ape" in the Commons Room at Rogers last night. "Yank," the hairy ape, went through his various tribulations before a house filled to capacity and was warmly applauded at its finish. London C. Page, the part of "Yank" and handled it exceptionally well. Throughout the play he did excellent work, putting over the last and most difficult scene in very commendable fashion. Page was ably backed by the cast, whose entire presentation seemed better than already that given for the faculty last Friday. The performance last night was another in its progress, the cast lacking some of the difficulty that was evident to (Continued on page 4)

**BUSINESS NEEDS MEN WITH BRAINS**

Ivy L. Lee Addresses Freshmen On Opportunities in Engineering of the Future

"A young man who is willing to play the game, to do as he is told, and not ask too much of his employer, will be the man who will get the big job that he is looking for," remarked Mr. Lee in his address to a small group of freshmen in Rogers at 7 o'clock yesterday afternoon at 3 o'clock.

Mr. Lee then went on to discuss the opportunities that a young man with nothing but brains has in the world today. Young men with initiative and health are in such demand. More young men are graduating from the colleges each year than ever before. There are large and the opportunities before men offer the possibility of the warmest kind of life and the widest sphere of activity. For great problems can be solved only by the young. This is especially true in industry. Large companies are beginning to realize that there is no such thing as a steady growth in the countries. In fact, companies are so desirous of getting that kind of men that they train them in all the departments of their industry. Their men are constantly on the watch for the men oppor- tunities; and when they find that are sure to have many opportuni-

**John F. Stevens Delivers First Of Aldred Lectures in 10-250 Today**

.CenterScreen

The Penne of the Young Student was presented this afternoon by John F. Stevens, who was responsible for the engineer- ing program at the Panama Canal. The lecture was given in the Commons Room when Mr. John F. Stevens delivered the Aldred Lecture of the year in 10-250 at 3 o'clock today.

Mr. Stevens has had many years experience in railway engineering, and many of his achievements have been attained in that line. It was he who found the Panama Canal when Mr. John F. Stevens delivered the Aldred Lecture last year in 10-250 at 3 o'clock today.
