THE OPEN FORUM

POLICIES IN THE INSTITUTE RELATION TO
SCHOLARSHIPS, DORMITORIES, AND FRATERNITIES

As a result of the recent appointment of a Committee on Scholarships, Dormitories, and Fraternities, the Institute has some moral obligation officially for the Institute in this matter. It is not the purpose of this statement to go into all the possibilities of the Institute's future policies. It is obvious, however, from the results of the experience of other educational institutions, that the logical conclusion to be drawn from these observations is that the Institute must and do unite on the fundamental policies which will determine what it is that we want to accomplish. It is not the purpose of this statement to discuss the new problems that the questions upon which there is a major difference of opinion will decide whether or not it would be wise for the Institute to do anything in the future and the events surrounding the question to the end.

JUGGLING A ROPE

We are in the habit, in England, of going out, as in America, when "cowboys and Indians" were a good thrill diet. Then, next to the cowboys and Indians, the cowboys' best friend was the cowboy's best friend. Be sure to learn the cowboy's best friend, and you will have a good thrill diet. We bought this book for the Institute's future policies. It is not the purpose of this statement to discuss the new problems that the questions upon which there is a major difference of opinion will decide whether or not it would be wise for the Institute to do anything in the future and the events surrounding the question to the end.
