\textbf{Professor Barker Gives E. E. Lectures}

On Thursday, February 9th, the first of a series of technical lectures will be given by Professor Barker of the Electrical Engineering Department. The title of this series is "The Electrical Engineer's Life," and the first lecture will be "The History of Engineering to the 15th Century." This theme is given every year to enable the men of the Junior class to get an idea as to what the advantages and disadvantages of this field hold for them. The lecture will be given over a period of about four months, and open to all members of the Junior class.

In the first class Professor Barker takes up "History of Engineering to the 15th Century," and his second on Thursday, February 16th, "The Age of Industrial Development."

\section*{The EDITORIAL SPECULUM

\textbf{What goes on in the world. How true it is that the sighted, the educated, and the literate who had the edge over him. With a sense of destiny, Frank Fahnestock put up an immortal fight, but he was not good enough to beat the second.}

\textbf{Frank Fahnestock put up an immortal fight.}

Frank Fahnestock put up an immortal fight, but he was not good enough to take his dismounts in flue shape and ought to have been at least first in the first place.

\section*{STUDENTS ATTEND T.C.A. WINTER OUTING

Mountain Climbing, Skating, Tobogganing and other Winter Sports

On February 4th, thirty students of the Institute returned from a three days' outing in the mountains of New Hampshire. The cost was in the neighborhood of $50. All of the students who went on this trip have a good reputation, and they will not have very much trouble procuring a trip next year.

On Friday morning, February 1st, the last of the students returned to the Institute, and the complete report of the trip was given by Professor L. N. Finkelnburg. The students were very well satisfied, and all of them reported back to the Institute.

\textbf{New Course in School Health}

Professor C. E. Turner will give Sanitation Aids

According to a recent announcement, a new course in the study of systems of school health is being offered this year in the School Health course. The course is given by Professor C. E. Turner of the Department of Physical Education and Public Health. As a national activity on school health programs, Professor Turner has organized a committee for the purpose of investigating the various methods of teaching school health in the United States.

\textbf{The lesson begins on the 16th.}

The lesson begins on the 16th. The program will be given on Friday afternoon from 3:00 to 4:00. The topics of the various lectures will be 'The Nature and Historical Development of the Practice of School Health', 'The FYI of Education from the standpoint of School Administration', 'The Philosophy of Health Education and the Role of Public Health Agencies', 'The Psychology and Philosophy of School Administration', and 'The Role of School Health in the Development of School Health.'

\section*{COPITHEORES ON LINCOLN

On Monday evening, February 13, five o'clock, Mr. M. R. Copithorne, of the English Department of the Tech will give a lecture in the Lecture Hall of Walker Memorial. Mr. Copithorne's program will center about Lincoln, not on his life, but on his character as a public figure. The lecture will be given by Professor Charles F. Taylor of the Department of History and Economics. The lecture will be given on Monday evening, February 13, at 8:00.

\section*{OFFICIAL ENDING

"I believe that the great strength of the American people lies in their ability to stand up to the test of adversity and to use the best of the nation's resources to help them to win the war."

"The entire nation is recalling Lincoln, not as a statesman, but as a major officer."

Mr. Copithorne's lecture will be given in the Lecture Hall of Walker Memorial. Professor Penfield Roberts' "Introduction to Politics."
