Latest reports from the Sophomore Dance Committee indicate that some for the music at the second session of the dance on the second floor will include the work of two orchestras. Originally, it was arranged to keep only the lone orchestra from Interfraternity Club, but it was found that the orchestra could not complete all the music that the plan required. The orchestra has extended its list of numbers to include songs of the Second Session of the dance, and it is expected that the orchestra will cover the remaining requirements.
