VOO DOO TO BE ON STANDS WEDNESDAY

On March 16th Voo Don's special number resuming the circus will be on the stand. The idea behind the name seems to be a sort of tandem for another "Tech-Circus" this year. The number is perhaps more thoroughly a special number than any of the previous ones.

The cover was done by Seron, and consists of a slave shuffling some bedload in front of the circus tent. Even one of the many drawings purporting to circus life. We have various pets as trapeze jumpers in mid-air, also dog and elephant, to say nothing of various forms of circus. One of the fat lady's dilemmas, or the trilby headed man with a hook. The number will also see several rounds to point out the issue.

SHOWS APPLICATION OF ATTITUDE COUNTER

Professor Sherrill Gives Science Lecture

(Continued from Page 1)

He incites a race, one quadrillionth of a second, to jump three and tenth steps of radioactivity deposit in the atom. Then with his great brush he paints the time it takes for it to be absorbed by the atom and again through the heart to the point corresponding to the original point.

"The counter, protected from the faint, is placed over the heart. With the heart of the radiating atom, very slight amount of such a second is enough to measure the rate of blood flow through the heart. A specimen for such research must hold for research purposes in dis- position of the heart."

Professor Sherrill showed some interesting cases in which a tumor was noted by himself and high-powered x-rays. The x-rays are obtained by hoholoeing, a vowel sound, which leads to societies for the good. This volume is important in curing rickets. Prof. Sherrill has also developed in his latest catodoloe tube some holds his very latest high-power x-ray achievements. The x-rays can be used in the various fields: as was noted, the good of the surrounding field, can be used in an adjustable field by the map of a blood, whereas the x-rays can be used in the adjacent field, and constant protection is necessary.

WILL HOLD BASEBALL DANCE IN WALKER

An informal baseball dinner will be held in the Main Hall of Walker House on the evening of Saturday, March 24. The dinner is to be far from the competition of the event, and to some extent possibly to allow the securing of a score and a single lace.

The following committee has been formed to take charge of arrangements for the dance: Hugh Hamilton II, class of '25, Art Klug, class of '25, Harry K. S. Noble, class of '25, Harry K. S. Noble, class of '25, and Robert Sherrill, class of '25, and Robert Sherrill, class of '25.

COMMITTEES CHOSEN FOR FRESHMAN DANCE

At a meeting of the freshman off- fice held last Thursday evening, the various committees for the dance on April 7th were chosen. Robert E. Freeman was made chairman of the publicity committee, assisted by Theodore Reiber and Ira McCann. The committee for the music was also chosen, chairman, Walter T. B. Brown, chairman, Walter T. B. Brown, and Robert McCullough, as his assistants. The chairmen of the orchestra committee is Joseph C. Noyes, Jr., assisted by George Goodwin. A meeting of these committees will be held at 8:15 tomorrow evening, in Walker.

BOXING TEAM TIPS HAMMER U.

(Continued from Page 1)

Can man win the first round by a single knockout? Certainly, according to the second as a target. The official says it might not be the best. But his clues were shut. "Circus" was asked for the first round as fresh as could be in the cubic yard. This was given to the outside of the slab, a single punch, the other member of the ring, and a long jab, without any result. The first round was given to Hammer U., as the man was knocked out.

VOO DOO will be on stands Wednesday, March 16th.

THERE'S a right way to say it, with flowers, or words, or even heeles. Hard heels say it with noise: They're good for a warning: that you're taking too many jobs and jugs in walking, and you ought to get on other heeles.

Goodyear Wingfoot Heeles say it with quiet, dignified style; with lastling, resilient cushion; with long satisfaction wear. Men people walk on Goodyear Wingfoot Heeles than on any other kind.

Just a minute with your shoe repairman, and you're on new Goodyear Wingfoot Heeles. Get yours today!
