New Infirmary Will Be Completed and Ready For Occupancy By June First

New Building to House Entire Hospital in Addition to Large Clinic

Completion of the new Infirmary of the Department of the Interior in the new building on the corner of Building 3 and Somerset. The building will be completed and ready for occupancy by June first. This will greatly increase the efficiency of the department and will enable the building to serve the patients more conveniently and to provide more space for medical and administrative offices.

The new Infirmary will contain 120 beds and will be equipped with modern facilities. It will be a two-story structure and will be designed to meet the needs of the hospital and its patients. The Infirmary will be staffed by qualified medical personnel and will be equipped with state-of-the-art medical equipment.

Five Winners of Airplane Contest Visit Institute

Prize-winning Models Flown in Student Assembly Of Aero Building

Winners of the “National Airplane Contest” have visited the Institute and shown their prize-winning models in the Student Assembly of the Aero Building. The models were flown in the contest, organized by the American Aeronautic Association, and they have been brought to the Institute for exhibition and discussion. The models are impressive and demonstrate the skill and creativity of the students who designed and built them.

An Airplane is a Small Wind Tunnel Of Instrumental Value

Small Wind Tunnel Of Instrumental Value

After a brief stay at Harvard the boys were taken on a visit to the Army Air Service, where they were shown the various facilities and equipment used in the service. This visit was followed by an inspection of the Institute, where they were given a tour of the various departments and were able to see the latest research and developments in the field of aeronautics.
