FRESHMEN CELEBRATE
TIE DAY WITH FIRE

After Monday Drill, Yearlings
Will Dedicate Tree
(Continued from Page 1)

A tree will be planted. Thereafter, a tree, presumably that of the President of the Class, will be buried under the tree with very fitting and appropriate ceremonies. A bugle corps will play taps and this will be followed by three salutes, fired by a special rifle squad. The band will then play after which President Bratton and Assistant-Dean Lobdell will probably address the students.

At the conclusion of the tree planting the bonfire will be lit and the freshman ties will now be gone forever. Further plans for the event will be made this evening at a meeting of the section-leaders which will be held in Room 413 at 5 o'clock.

The University of Michigan numbers 65,000 living alumni and former students on its rolls. With the graduation of a large class in June it is expected that the figures will soar close to 70,000.

THE TECH

Wednesday, April 11, 1928
