Theo's trier--Sock it!

The saxophones moan. The trumpets trump. The cornets corn. And the who fellow plays the piano should have been an aristocrat! That's the kind of an aggregation which gets real music out of dumb animals at a dance.

And real music means even the best dancer doesn't count! All right! Go over in the corner by the palm trees and quench your thirst with "Canada Dry." This ginger ale has a delightful flavor that can please the most critical palate. It comes in a convenient case of six. You'll find it at any grocery store.

Sports Desk

Six feet three inches is an awful

manner to lose one of the members of the

Techny gym team had found out.

This was caused by a strange

method of scoring, in which a

two foot stand made out of

board on which the long horse

was placed. The horse was so high

that the smallest member of the team

could reach him.

None of the band members

would try for the score, and it remained

for Coach Pearson, with over half of the

men, the members of the crew,

to try. The crew's boat was

a third in the discus.

The team was instigated by

Professor H. T. Richards, director of all

the activities.
