Professor William H. Timbie of the Physics Department has recently been appointed delegate to the national convention of the American Institute of Electrical Engineers to be held in Boston during the latter part of June. Professor Timbie will represent the Student Branches of the Northeastern Connecticut District.

He will present to the convention the recommendation of the Standing Committee of the Division that the sum of two thousand dollars be placed in a fund to aid engineering students convention in the ten divisions of the country which is voted. Only six of these divisions have ever held regional student conventions and it is thought necessary to assist the others to defray the costs of such gatherings.

It is probable that the proposal of holding a national student convention apart from the main convention will be presented for consideration. This suggestion was discussed at the regional convention held in New Haven last week. Swampscott was selected by the regional convention for its annual meeting in 1929.

**NEW SONG BOOK IS ALMOST COMPLETED**

Humorous Songs With Catchy Melodies and Poppy Tunes Included

Work on the Technology Song-Book, upon which the committee has been working for several months, has proceeded rapidly. It is expected that the various parts of the book will soon be sent to the printers and ready for distribution as soon as the final revision is made and the new song book will be ready for sale in July.

In the book there will appear several new songs. This is the "Stein Song" in its original form. It has been included in the "Sixth Song" with the "Technicat in White," "Male Song," "Iowa," "O. C. and Two Good Alma Mater Songs," and "Old Tech Show Score.

Many of these songs included, according to the Alum Mather songs styled, "Amat of the Signs of the Times." The "Stein Song" is a lighthearted and amusing song which is sure to be enjoyed by all students who have ever attended a Tech Show.
